USES AND TIPS	<ul style="list-style-type: none"> • Chicken parts are ready to heat and serve.
FOOD SAFETY INFORMATION	<ul style="list-style-type: none"> • Thaw frozen products in the refrigerator below fresh or ready-to-eat foods. • Heat processed ready-to-eat chicken products from a package to 165°F for 15 seconds as measured by thermometer. Do not judge doneness by the color or texture of the food. The pink color in safely cooked chicken is due to the hemoglobin in tissues which can form a heat-stable color. Smoking or grilling may also cause this reaction, which occurs more in young birds. • This product is gluten free.
